

PREPARED FOR

Ramesh Kumar Verma

Mobile: +91 9876543210

Email: ramesh@example.com

Location: Gomti Nagar, Lucknow

Requirement: Rooftop Solar Installation

SYSTEM SIZE

3 kW

EST. ANNUAL GENERATION

4,350 units

EST. MONTHLY SAVING

Rs. 2,900

COMMERCIAL OFFER

Supply & installation — 3 kW solar power plant

Rs. 1,95,000

(approx. Rs. 65,000 per kW, inclusive of structure, cabling, safety gear and commissioning)

Less: PM Surya Ghar central subsidy

- Rs. 78,000

NET COST AFTER SUBSIDY

Rs. 1,17,000

Note: the central subsidy is paid directly into your bank account by the government after the system is commissioned and inspected by the discom. It is not an upfront discount — the full amount is payable to us at the agreed milestones.

ESTIMATED RETURNS

Estimated annual generation

4,350 units

Estimated annual saving

Rs. 34,800

Estimated payback period

3.4 years

Estimated 25-year generation

1,00,920 units

Estimates assume 1450 units per kW per year and a tariff of Rs. 8 per unit. Actual generation varies with shading, orientation, weather and cleaning. These figures are indicative, not a guarantee.

SCOPE & TERMS

- Supply of solar modules, inverter, mounting structure, cabling, earthing and protection devices.
- Complete installation, testing and commissioning by our in-house certified team.
- Net-metering liaison with the discom: application, feasibility, inspection and meter installation.
- Assistance with the PM Surya Ghar subsidy application for eligible residential customers.
- Manufacturer warranties apply to modules and inverter; workmanship warranty provided by us.
- This quotation is valid for 15 days from the date above and is subject to a final site survey.
